

NOTE - If only one entrance point, the player(s) playing on the furthest away rink should enter first.

When leaving the green, the players nearest the entrance will leave first.

Follow rules on social distancing at ALL times

If at anytime a player has to leave the green, the other players MUST be made aware to allow for appropriate distancing to be adhered to.

This is a generic layout and should be adopted to your own green positions regardless of direction of play, or position of steps.
