

Halfway & District Bowling Club recommend switching to Castle Water

How long has your club been using Castle Water?

We switched to Castle Water in May 2016.

What level of service have you received?

Any time we've had any queries or questions on our account they have been resolved immediately.

I have found that the customer support is very good and any issues are answered and resolved immediately.

What made the club decide to switch provider?

We were offered a better price and a preferential rate due to Castle Water being in partnership with Bowls Scotland. We have definitely saved money due to the better rates.

Would you recommend Castle Water to other clubs?

I would recommend Castle Water due to the ease of entering meter readings, invoices being based on actual readings, good customer service and a good base rate being charged.

In partnership
with Bowls Scotland
