

Bowls Scotland Coach Education Subsidy

As part of Bowls Scotland's ambition to be the best performing nation in the world, we continue to invest in our clubs to increase the quality and quantity of coaches from grass roots to high performance.

In order to ensure that individuals who play our sport are from all areas of Scotland, we are aiming to remove as many barriers as we can to ensure coaches can be upskilled from a diverse range of our population.

Between December 2023 and March 2025 we have worked with clubs to ensure £10,000 of investment has been used to financially support coaches and clubs from our 5 main target groups to ensure we continue to not only grow the number of coaches but broaden the diversity of our coaching workforce. Since then, 186 coaches from 83 different clubs all over Scotland have been financially supported by Bowls Scotland to access free or heavily discounted Coach Education opportunities.

Thanks to the huge success from the initial Subsidy Fund, **sportscotland** have once again continued their investment within our sport with a further £8,700, allowing us to continue accepting applications for subsidy from May 2025 on to March 2026.

With huge thanks to our key partners at **sportscotland**, this increased investment will allow us to expand our Coach Education Subsidy Fund for all coaches within these five target areas. This will continue to allow all eligible individuals or clubs to apply for 25% or 50% discount on our Bowls Scotland education costs.

The following 5 target areas have been identified as target areas to increase the number of qualified coaches;

- Female Coaches
- Coaches aged 16-25 years old
- Coaches with a disability
- Coaches from Rural Areas
- Coaches from Areas of Social Deprivation
